

Where TIME

electronic time cards for unique businesses

WhereTime is an electronic time card management application that is tailored for the education sector, but can be configured to fit any organization. WhereTime collects time scans for any type of employee activity, ranging from regular activities to after-hours special events. WhereTime completely eliminates the need for paper timesheets and reports, and integrates with your current payroll and compensation business systems.

WhereTime Benefits

- Eliminates manual timesheets
- Manages employee time from a secure, user-friendly interface
- Processes transactions from a variety of devices
- Secure views are defined for managers, system administrators and employees
- Prints timesheets on demand
- Manages holidays and requested leave
- Easily integrates to payroll systems
- Eliminates pay period rush
- Enforces business specific policies
